

### **the promise bonds of pdf**

A bond is a type of investment that represents a loan between a borrower and a lender. Think of it as similar to getting a personal loan from a bank – except in this case you are the lender (known as the investor or creditor) and the borrower is generally a government or corporation (known as the issuer).

While stocks represent ownership shares in a corporation, a bond is an IOU that obligates the borrower to pay the lender a specified sum of money at regular intervals and to repay the principal amount of the loan at the maturity date. The holder of a bond does not have the ownership privileges that a stockholder does.

In the corporate form of ownership, the shareholders are the owners of the firm. The shareholders elect the directors of the corporation, who in turn appoint the firmâ€™s management. This separation of ownership from control in the corporate form of organization is what causes agency problems to exist.
