Overview: This guide explores the individuation process as described by Carl Jung and Jungian psychology.. Sigmund Freud was a pioneer in the field of psychology. He named his new field psychoanalysis, as in the study of psychotic and mentally ill patients. Early in Carl Jungâ€™s career, Freud was like a father figure to him.

### **Individuation Process: A Step-by-Step Look at Jungian**

The individuation process is a term created by the famous psychologist Carl Gustav Jung to describe the process of becoming aware of oneself, of one's make-up, and the way to discover one's true, inner self. Although the structure is basic and simple, the contents require a much deeper understanding.

Separation-Individuation Theory of Child Development (Mahler) Mahler is regarded as one of the main contributors to the field of "ego psychology", a school of thought which evolved from Sigmund Freud's Structural Model (id-ego-superego).

### **Separation-Individuation Theory of Child Development**

Individuation is a process of psychological differentiation, having for its goal the development of the individual personality. In general, it is the process by which individual beings are formed and differentiated; in particular, it is the development of the psychological individual as a being distinct from the general, collective psychology.

### **Carl Jung: Individuation Process - Mindstructures**

Jung's Individuation process . Individuation is the process of integrating the conscious with the unconscious, for the purpose of self-actualization.. Individuation is the goal of our psychological development. Individuation is a philosophical, spiritual and mystical experience (Jung, 1989b, p. 294).
