The Game of Life, also known simply as Life, is a cellular automaton devised by the British mathematician John Horton Conway in 1970.. The game is a zero-player game, meaning that its evolution is determined by its initial state, requiring no further input. One interacts with the Game of Life by creating an initial configuration and observing how it evolves, or, for advanced players, by ...

The appearance of The New Game of Human Life on 14 July 1790 was a significant milestone in the history of British leisure. Its London publishers, John Wallis and Elizabeth Newbery, appealingly packaged the table-game for a flourishing children's market and for middle-class consumers invested in stories of individual development and social mobility.
